SERIES 2186

This compact and powerful, portable flood light delivers 10,500 lumens with a 500 watt quartz halogen bulb. It provides excellent non-diffused medium flood illumination which can be aimed at object or scene with easy horizontal and vertical adjustments.

Although portable with its own tripod base, this light may be used in a fixed position, mounted on a vehicle, or mounted on heavy-duty telescoping tripod (Model 2174) using yoke for attachment.

A rugged little work light for many applications requiring temporary lighting of storage and construction areas, fire and accident scenes.

- FEATURES**
- Lightweight cast aluminum housing.
 - Insulated carry handle.
 - Sturdy tripod base.
 - Vertical and horizontal adjustment.
 - Tempered glass lens and wire guard to protect bulb from water and physical damage.
 - Watertight power cord connector.
