

JUMBO JETLITE

SERIES 2128

SPECIALTY LIGHTING INC.

1825 Galveston Street - Grand Prairie, Texas 75051
Telephone: 972-642-9818 • Fax: 972-237-9085

Big brother to the Jetlite, this lightweight but heavy duty inspection/utility light delivers up to 200,000 candlepower.

This very high intensity spotlight is ideal for applications requiring intense, glare-free and concentrated illumination either close up or at distances such as in tanks, pipes, underground vaults, boilers, etc.

FEATURES

- Switch protected by neoprene cover.
- Wire guard or glass lens protects bulb.
- Low voltage at the hand.
- Completely enclosed and encapsulated transformer.
- Light weight and completely portable.
